Update:

March 2011

Two cases are dropped based on Tracker documentation:

"In the course of reviewing data, it was discovered that one line, HHID 022965 and PN 041, was indeed never a qualified respondent. Also it has been determined that the interview obtained from HHID 022965 and PN 040 cannot be verified and should not have been taken. The line for PN 041 has been removed from the tracker file and the wave specific variables have been recoded for PN 040 to reflect non-response."
